### 2 Objectives and Work Programme (Ziele und Arbeitsprogramm)

#### 2.1 Anticipated total duration of the project (Voraussichtliche Gesamtdauer des Projekts)

#### 2.2 Objectives (Ziele)

**O1: Supporting Authors** This is the first objective, after all we have to write proposals all the time, and we would rather spend time on research.

**O2: Supporting Reviewers** They are only human too, so let's have a heart for them as well.

#### 2.3 Work programme including proposed research methods (Arbeitsprogramm inkl. vorgesehener Untersuchungsmethoden)

L<sup>A</sup>T<sub>E</sub>X is the best document markup language, it can even be used for literate programming [1, 3, 2]

The project is organized around two large-scale work areas which correspond to the objectives formulated above. These are subdivided into five work packages, which we summarize in Figure 1. Work area [WA1](#) will run over the whole project duration of iPoWr. All three work packages in [WA2](#) will and have to be covered simultaneously in order to benefit from design-implementation-application feedback loops.

##### Work Area 1: Management, Support & Sustainability

This work-group corresponds to Objective [O1](#) and has two work packages: one for management proper ([WP1.1](#)), and one each for dissemination ([WP1.2](#))

This work group ensures the dissemination and creation of the periodic integrative reports containing the periodic Project Management Report, the Project Management Handbook, an Knowledge Dissemination Plan ([WP1.1](#)), the Proceedings of the Annual iPoWr Summer School as well as non-public Dissemination and Exploitation plans ([WP1.2](#)), as well as a report of the iPoWr project milestones.

Based on the "Bewilligungsbescheid" of the DFG, and based on the financial and administrative data agreed, the project manager will carry out the overall project management, including administrative management. A project quality handbook will be defined, and a iPoWr help-desk for answering questions about the format (first project-internal, and after month 12 public) will be established. The project management will consist of the following tasks

- T1 (M0-M3)  
To perform the administrative, scientific/technical, and financial management of the project
- T2 (M13-M17)  
To co-ordinate the contacts with the DFG and other funding bodies, building on the results in [WP1.1.T1](#)
- T3 To control quality and timing of project results and to resolve conflicts
- T4 To set up inter-project communication rules and mechanisms

Much of the activity of a project involves small groups of nodes in joint work. This work package is set up to ensure their best wide-scale integration, communication, and synergetic presentation of the results. Clearly identified means of dissemination of work-in-progress as well as final results will serve the effectiveness of work within the project and steadily improve the visibility and usage of the emerging semantic services.

The work package members set up events for dissemination of the research and work-in-progress results for researchers (workshops and summer schools), and for industry (trade fairs). An in-depth evaluation will be undertaken of the response of test-users.

Within two months of the start of the project, a project website will go live. This website will have two areas: a members' area and a public area...

## Work Area 2: System Development

This workarea does not correspond to [O2: Supporting Reviewers](#), but it has two work packages: one for the development of the  $\LaTeX$  class ([WP2.1](#)), and for the proposal template ([WP2.2](#))

This work group coordinates the system development.

Work Package 2.1	Site	JacU	PCG	all

We plan to develop a  $\LaTeX$  class for marking up EU Proposals

## 4 Requested Modules/Funds (Beantragte Module/Mittel)

For each applicant, we apply for funding within the Basic Module.

### 4.1 Funding for Staff (Personalbedarf)

#### 4.1.1 Research Staff

We apply for the following positions. All run over the entire duration of the proposed project.

**Non-doctoral staff** One doctoral researcher for 2 years at 100% for Michael Kohlhase.  
One doctoral researcher for 2 years at 100% for Florian Rabe.

**Other research assistants** One student with BSc. for 2 years at 100% for Michael Kohlhase.  
One student with BSc. for 2 years at 100% for Florian Rabe.

#### 4.1.2 Non-academic Staff

None.

#### 4.1.3 Student assistants

None.

### 4.2 Funding for direct project costs

#### 4.2.1 Equipment up to 10,000 €, software and consumables

None. PC will cover the workspace, computing needs, and consumables for its staff as part of the basic support.

#### 4.2.2 Travel Expenses(Reisen)

The travel budget shall cover:

- visits to external collaborators. We expect two international visits. We estimate that each visit will be most effective, if the junior researchers can spend about 3 weeks with the partners. Thus we estimate 2500 € per visit.

- visits to national conferences to disseminate the results of iPoWr. We expect one visit for each year for each of the three researchers. (3 x 3 x 1000 €)
- visits to international conferences to disseminate the results of iPoWr. These are in particular the International Joint Conference on Document Engineering (DocEng) and the Tech User Group Meeting (TUG). We expect one visit for each proposed researcher and for each year. (3 x 3 x 1500 €)

This sums up to a total amount of 32.500 € for travel expenses for the whole funding period of three years which is split into 16.250 € for each institute (PC and Jacobs University).

#### **4.2.3 Visiting Researchers**

Total expenses **10.200 €**

As explained in Section 4.2.2, we expect 5 incoming research visits. Assuming an average duration of 3 weeks, we estimate the cost of one visit at 600 € for traveling and 70 € per night for accommodation, amounting to 2040 € per visit.

#### **4.2.4 Expenses for laboratory animals**

None.

#### **4.2.5 Other costs (Sonstige Kosten)**

None.

#### **4.2.6 Project-related publication expenses**

None.

### **4.3 Funding for Instrumentation**
